

Grad 2021

Grad Car Parade Guidelines / Route / Route Directions

Guidelines

1. Despite being called a “parade”, this takes place along city roads, so the regular rules of the road apply. Drivers must be licensed, stay at the posted speed, all vehicle occupants must be wearing seat belts, drivers must not be under the influence of drugs or alcohol, etc.
2. We will be marshaling at the **NIC parking lot** at 11:00am, and depart the school at 11:15am, driving past Timberline’s main entrance to join the parade route on Rockland Rd. **Please enter the NIC parking lot from the Dogwood entrance.** Once you drive away from the school do not be concerned about staying together. Families can also join in at a location that is convenient for them anywhere along the route. Follow the route for as long as you like, then exit and return home until your designated time at the school for the grad ceremony.
3. We ask that cars follow the direction of the cruise route (counterclockwise around through Campbell River), as it has been created to minimize left turns to keep things running smoothly and safely.
4. We encourage you to decorate your cars, but make sure that your decorations are securely fastened and do not obscure vision for the driver.
5. It is important that someone other than the grad is driving the vehicle. This way the driver can focus on driving and the grad can focus on enjoyment.
